This diagram shows an exploded view of a mechanical assembly. A central shaft, labeled with a circled '3', passes through two identical assemblies. Each assembly consists of a rectangular block labeled 'space block' with four holes, a pulley labeled 'E8' mounted on the shaft, and a small cylindrical component labeled 'G4' positioned behind the pulley. Dashed lines labeled 'A5' indicate the alignment of the pulley and the 'G4' component. At the far right end of the shaft, two small cylindrical components labeled 'C3' are shown. A large '2x' multiplier is placed below the shaft, indicating that the assembly between the pulley and the 'G4' component is repeated twice. A callout box on the left provides a detailed view of the pulley 'E8' and the 'space block'.

Diagram 02 illustrates the mounting of the side rail. The side rail (3) is attached to the base (1) using brackets (B5) and screws (B18+G3). The diagram shows the side rail (3) being positioned and secured to the base (1) using the provided hardware. The callouts show the installation of brackets B5 and screws B18+G3. The legend on the right lists the parts: G3 - 01x, B18 - 04x, and B5 - 04x.
